H. Brand, Arch.

Evangelical Mission Covenant Church, Hinsdale, Illinois.

Ravenswood Photo Service

Eliel & Eero Saarinen, Archs.

Hedrich-Blessing

The Tabernacle Church of Christ, Columbus, Indiana.

commercial

The economy of structural clay products construction is undeniable. It is a well-known fact that the ultimate economy of brick and tile construction is unsurpassed by any other building material since they necessitate no expensive upkeep or repairs and thus keep maintenance expenditures to a minimum.

Harley, Ellington & Day, Inc., Archs.

Mottschall Company, Detroit, Michigan.

Martens & Son, Archs.

Jean St. Thomas

United Carbon Building, Charleston, W. Va.

Holabird & Root, Archs.

Hedrich-Blessing

Illinois Title Company, Waukegan, Illinois.

hospitals

Where sanitation is paramount, facing tile is without parallel. The non-porous surface of this material resists stains, grime, and the adherence of bacteria. A simple soap and water wash quickly restores the surface to the original gleaming, light-reflecting state which is demanded by modern medical facilities.

Crippled Children's Home, Denver, Colorado.

Burnham Hoyt, Arch.

Hedrich-Blessing

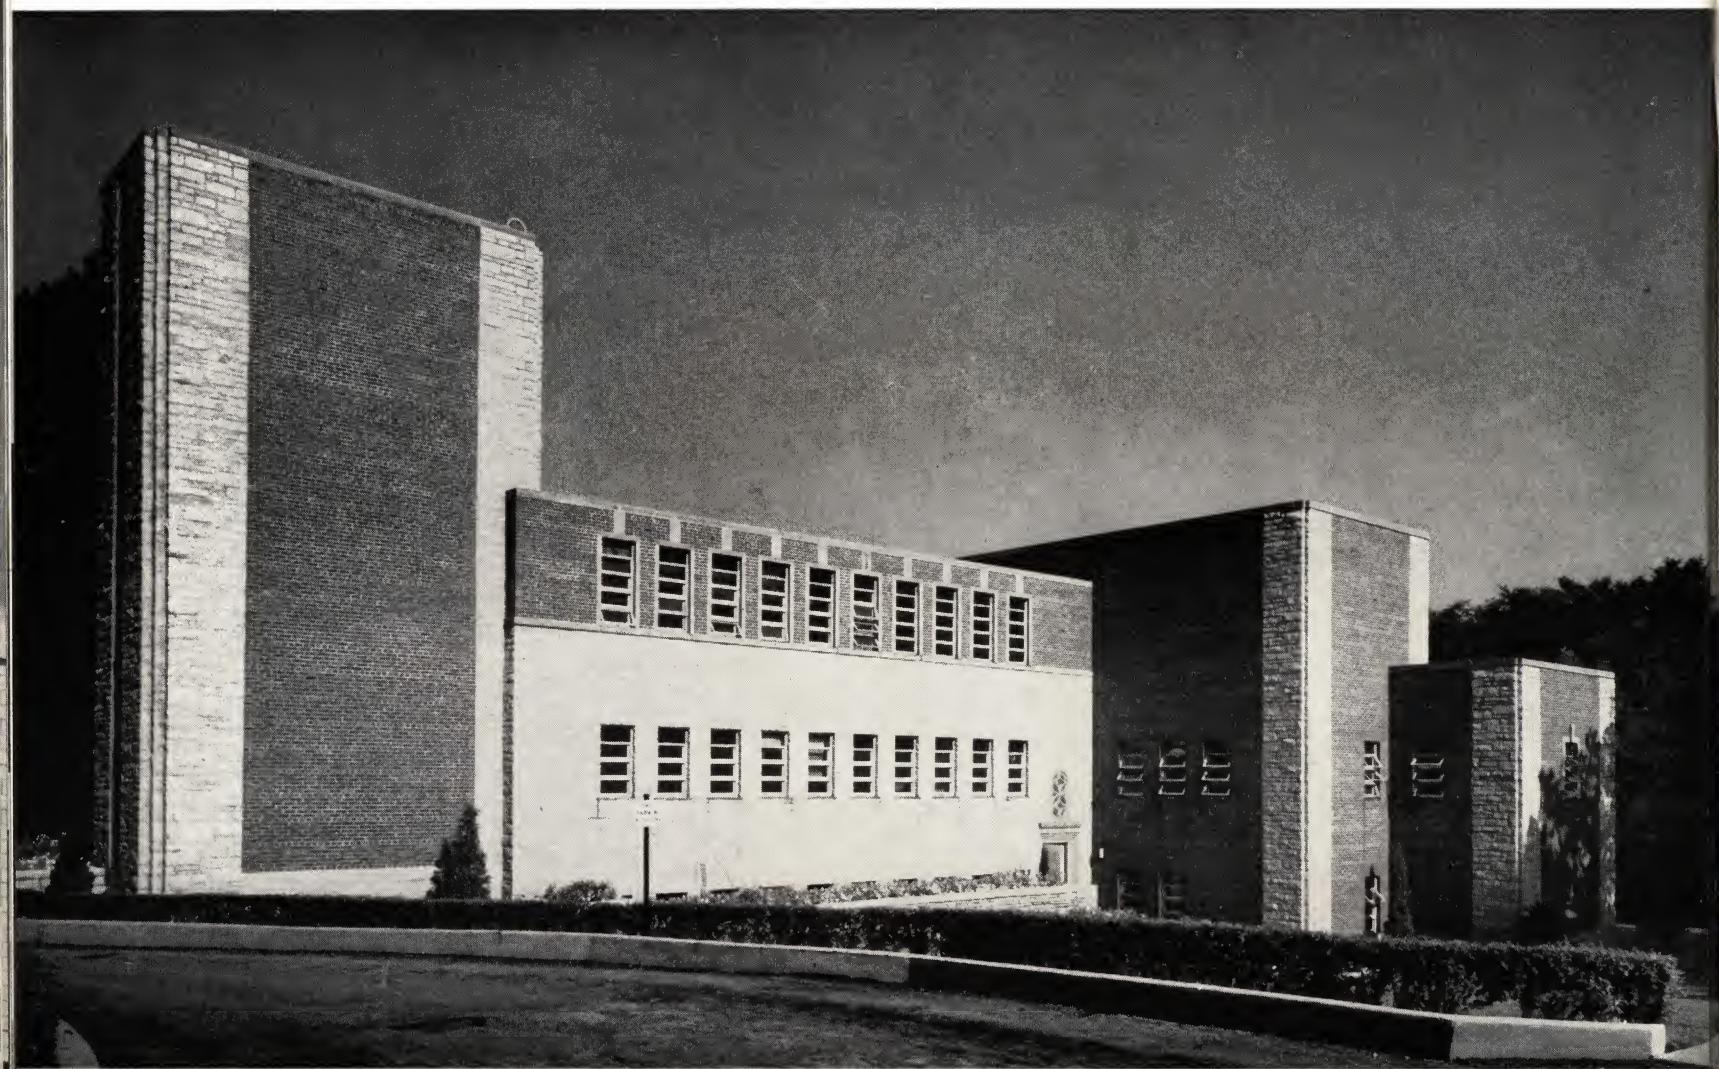

Skidmore, Owings & Merrill, Archs.

Hedrich-Blessing

Little Traverse Hospital, Petoskey, Michigan.

Schmidt, Garden & Erikson, Archs.

Hedrich-Blessing

St. John's Hickey Memorial Hospital, Anderson, Indiana.

Frank Fairbank, Arch.

Hedrich-Blessing

Delnor Hospital, St. Charles, Illinois.

industrial

Inherently possessed of strength greatly beyond that necessary to bear the enormous strains and stresses imposed upon it by modern architectural design, brick and tile masonry is ideally suited to give substantial support without the appearance of unsightly mass.
